# Measuring method

**Installation of window blinds have two methods: inside mount & outside mount.**

**Measuring method for Inside mount:**

Horizontal direction (Width) measure inside of window: top, middle and bottom three points ( as below pics in orange line show )

Vertical direction (Height) measure inside of window: left and right side ( as below pic in orange line show)
The sizes for window's width & height **choose the minimum ones** as the window size. **For width of ready made blinds, advise to deduct 5-10mm for tolerance.**

**Measure method for Outside mount:**

Horizontal direction (Width) measure inside of window: top, middle and bottom three points ( as below pics in grey line show )

Vertical direction (Height) measure inside of window: left and right side ( as below pic in grey line show)

The sizes for window's width & height **choose the maximum ones** as the window size. **For width of ready made blinds, advise to add 100mm for Window's width& height to make sure blinds total cover the window frame.**

Width for outside mount of window

Width for inside mount of window

Height for outside mount of window

Height for inside mount of window

Window mounting depth

**Window mounting depth≥10cm**

# Package types

**Inner packing**

Clear PVC Box

Air bubble wrap

**Outer Packing**

5 layers thicken carton + angle protection for 4 edges

**Packing Real Site**

**Integrity / Quality / Professional / Service**
